.ART – Terms and Conditions

In addition to your registration agreement, the .ART Registry-Registrar Agreement (“RRA”) terms and conditions set out here shall apply. In the event of any inconsistency between the terms of your registration agreement and the terms set out here, the RRA terms shall prevail.

1. Registry may from time to time replace or make modifications to the EPP, APIs, or Software or other materials licensed hereunder that will modify, revise or augment the features of the Registry System. Registry will provide Registrar with at least thirty (30) days' notice prior to the implementation of any material changes to the Registry System, unless it is a change to EPP or requires implementation by Registrar in which case Registry will provide Registrar with ninety (90) days prior notice. Registry will use commercially reasonable efforts to provide Registrar with advance notice of any non-material changes. These notice periods shall not apply in the event Registry System is subject to the imminent threat of a failure or a material security threat, immediate implementation of ICANN temporary policies, or the discovery of a major security vulnerability or a denial of service (DoS) attack where the Registry System is rendered inaccessible by being subject to (i) excessive levels of data traffic, (ii) unauthorized traffic; and/or (iii) data traffic not conforming to the protocols used by the Registry System, but Registry will use commercially reasonable efforts to provide notice as soon as practicable.

2. Registry shall comply with its obligations under Applicable Laws in relation to the processing of Personal Data and shall notify Registrar of Registry's published privacy and/or data protection policy (Registry Privacy Policy). Registrar may refer Registrants to Registry Privacy Policy where necessary.

3. To the extent (if at all) Registry is a 'data processor' (as defined in the Data Protection Act 1998) in respect of any Personal Data, Registry: (i) shall take appropriate technical and organisational measures to protect such Personal Data against unauthorised access to, or unauthorised disclosure, alteration or destruction of such Personal Data; and (ii) not use or authorise the use of such Personal Data in a way that is incompatible with the Registry Privacy Policy.

4. Registry may from time to time use demographic data collected for statistical and research purposes, provided that such analysis will not result in the disclosure of Personal Data and provided that such use is compatible with the Registry Privacy Policy regarding the purpose and procedures for such use. Subject to clause 4, Registry will not assign or transfer any Personal Data to any third party provided that, if and when required by ICANN, Registry may make Personal Data available to ICANN or any relevant government or law enforcement agencies. Registrar must obtain the express consent of each Registrant for the collection and use of Personal Data as described in this clause.

5. Registrar shall comply with each of the following requirements, and further shall include in its Registration Agreement with each Registrant, as applicable, an obligation for such Registrant to comply with each of the following requirements:
5.1 ICANN standards, policies, procedures, and practices for which Registry Operator has monitoring responsibility in accordance with the Registry Agreement or other arrangement with ICANN; and;

5.2 Operational standards, policies, procedures, and practices for the TLD established from time to time by Registry Operator, including without limitation all Registry Policies. Any additional or revised Registry Operator operational standards, policies, procedures, and practices for the TLD shall be effective thirty (30) days after posting on Registry Website. If there is a discrepancy between the terms required by this Agreement and the terms of the Registrar’s Registration Agreement, the terms of this Agreement shall supersede those of the Registrar’s registration agreement.

6. As part of its registration and sponsorship of Registered Names in the TLD, Registrar shall submit complete data as required by technical specifications of the Registry System that are made available to Registrar from time to time.

7. Registrar shall submit any corrections or updates from a Registrant relating to the registration information for a Registered Name to Registry in a timely manner. Registry shall be entitled at any time to verify the truth, accuracy and completeness of any information provided by Registrants whether directly through Registrar or otherwise and also compliance by Registrant with Registry Policies and ICANN Requirements. Registrar shall fully comply and cooperate with Registry in connection with such verification and furnish all requested documentation as Registry may reasonably require in order to complete such verification.

3. Obtaining Registrants’ express consent for the collection and use of Personal Data for the provision of Registry Services and the express consent of each registrant applicant to being contacted by Registry in accordance with the Registry Policies.

4. Obtaining Registrant’s agreement to comply with the Acceptable Use Policy comprised in the Registry Policies.

5. Registrants are hereby notified of Registrar’s obligations including:

a. Enforcing all ICANN policies including the requirement to provide accurate contact information for the Registrant; and

6. Including provisions substantially as follows (where any capitalised terms have been defined in the Registration Agreement):
a. “To the extent permitted by Applicable Law, Registrant shall indemnify, defend and hold harmless indemnify, and hold harmless UK Creative Ideas Limited (the registry operator for .ART), [Name of Registry Services Provider] (the registry operator’s current back-end technical services provider) and such parties’ officers, directors, shareholders, owners, managers, employees, agents, representatives, contractors, affiliates, successors, assigns and attorneys (the Registry Related Parties) from and against any and all claims made by third parties against the Registrant loss, liability, claims, demands, damages, cost or expense, causes of action, suits, or Registry Related Parties, including, but not limited to, all proceedings, judgments, awards, executions and liens, including lawyers’ fees on a full indemnity basis, and costs (including claims without legal merit or brought in bad faith), relating to or arising under this Agreement, including Registrant’s use, display, exploitation, or registration of the Domain Name. If an indemnified party is threatened by claims or suit of a third party, the indemnified party may seek written assurances from Registrant that it can satisfy and fulfil its indemnification obligations but will not be required to do so in order to rely upon this indemnity. Failure to provide such written assurances in a form satisfactory to the indemnified party is a material breach of this Agreement.”; and

b. “The Registry is not a party to this Agreement and the Registrar does not act as agent for the Registry. However, the Registry and each of the Registry Affiliates are an intended beneficiary of any rights granted to it by this Agreement with the ability to enforce that right directly against Registrant (whether under the Contracts (Rights of Third Parties) Act 1999 or otherwise). Registrant and Registrar also acknowledge that the Registry in permitting the registration of a Domain Name and also in allowing a Domain Name to remain registered in the TLD, relies upon the fact that Registrant and the Registrar have agreed to the terms of this Agreement.”
