I. Registration Requirements

Before the Registry Operator will accept applications for registration from Registrar, all domain name applicants in the .NYC TLD ("Applicants") must: 1. Enter into an electronic or paper registration agreement with the Registrar, in accordance with the ICANN RAA and this Agreement. Such electronic or paper registration agreement shall include, at a minimum, the following certifications:

c) The domain name registrant shall comply with the .nyc Nexus and Acceptable Use policies;
and

II. .nyc Nexus Policy

The City of New York desires to have only those individuals or entities having a substantive and lawful connection to the City be permitted to register for .NYC domain names ("Nexus Policy").

1. Registrants in .NYC must be either:
a. a natural person whose primary place of domicile is a valid physical address in the City of New York ("Nexus Category 1");
b. an entity or organization that has a physical street address in the City of New York ("Nexus Category 2");

2. The existence of a P.O. Box address in the City of New York shall not qualify for purposes of meeting the Nexus Policy.

3. Registrants must agree in their Agreement with their Registrar and/or Reseller, as applicable, that they are in compliance with all relevant Federal, New York State and New York City laws, including the tax requirements for conducting business via the Internet. Registrants may find more information about compliance with the City tax laws at the City of New York Department of Finance’s website (currently at www.nyc.gov/finance).

4. Registrants must remain in compliance with the applicable Nexus Category for the entire period of such domain name’s registration by the registrant;

5. Registrars shall require that all registrants certify that they satisfy the Nexus Policy.
6. Registrants may not license, sub-delegate or otherwise transfer .NYC domain names to third parties that otherwise fail to meet the requirements of this Nexus Policy.

III. Nexus Enforcement Rules
1. Initial Validation.
All .nyc registrants shall be required to provide a valid New York City physical address as set forth in the .nyc Nexus Policy. The failure of the Registrant to provide a valid New York City physical address in compliance with the .nyc Nexus Policy shall result in the denial of the registration for the applicable domain name.

2. Registry Spot Checks and Enforcement for Continuing Compliance with Nexus Requirements
In addition, the Registry Operator will:
(i) institute a post-registration random Nexus spot check process as well as
(ii) investigate specific complaints received from interested third parties.

In the event that the Registry Operator determines that a registrant has not met the Nexus Policy, the Registrant’s domain name(s) shall be locked (preventing the domain name from being updated or transferred). An email shall be sent to the Registrant requiring it to submit evidence that it is in fact compliant with the Nexus Policy.

a. If the determination was made by the Registry Operator as a result of a random spot check, the Registrant shall be provided thirty (30) calendar days to submit evidence of compliance with the Nexus policies. If within that 30-day period the Registrant is able to demonstrate its compliance, the complaint shall be dismissed. If the Registrant is unable to demonstrate compliance, then the Registry Operator shall make an initial .nyc Registry Registrar Agreement 29 determination that the Registrant is in fact not in compliance with the Nexus Policy and shall give the Registrant a period of thirty (30) calendar days to cure the deficiency (“Cure Period”); Failure to remedy the deficiency within the Cure Period shall result in the immediate deletion of the domain name.

b. If the determination was made by the Registry Operator as a result of a third party complaint, the Registrant shall be given ten (10) calendar days to provide evidence of compliance with the Nexus policies. If within that 10-day period the Registrar is able to demonstrate its compliance, the complaint shall be dismissed. If the Registrar is unable to demonstrate its compliance, then the Registry Operator shall make an initial determination that the Registrant is in fact not in compliance with the Nexus Requirements and shall give the Registrant a period of ten (10) calendar days to cure the deficiency (“Cure Period”); Failure to remedy the deficiency within the Cure Period shall result in the immediate deletion of the domain name. Under this process, the only remedy available is the deletion of the domain name. Domain names will not be transferred to any third-party complainant that avails itself of this process.

3. Third-Party Independent-Dispute Process
In addition to the Registry spot checks and enforcement actions in response to third-party complaints, a third party may challenge a Registrant’s compliance with .nyc Nexus Policy by utilizing the third-party challenge mechanism called the .nyc Nexus Dispute Resolution Policy that provides a legal and policy framework for resolution of any such dispute. A complainant may choose to do this for a variety of reasons, including, but not limited to:
(i) disagreement with a determination by the Registry Operator that the registrant meets Nexus policies, or
(ii) a desire to have the name transferred to it if in fact:
(a) the Registrant does not meet Nexus policies, and
(b) the complainant is able to demonstrate compliance with Nexus policies.

If a Nexus dispute is initiated pursuant to the .nyc Nexus Dispute Resolution Policy, it may be submitted to an approved Nexus Dispute Resolution Service Provider. The approved Nexus Dispute Resolution Service Provider must follow the .nyc Nexus Dispute Resolution Policy and the document, Rules for Nexus Dispute Policy (collectively referred to as the “NDRP”), but may also add its own supplemental rules so long as such rules do not conflict with the NDRP. The Rules for Nexus Dispute Policy are located at [INSERT LINK].

V. Incorporation of applicable Dispute Resolution Services
In addition, Registrar agrees to incorporate the following text (or translation of such text into relevant language) into their Registration Agreement:
"The Registrant acknowledges having read and understood and agrees to be bound by the terms and conditions of the following documents, as they may be amended from time to time, which are hereby incorporated and made an integral part of this Agreement:

The UDRP sets forth the terms and conditions in connection with a dispute between a Registrant and any party other than the Registry Operator or Registrar over the registration and use of an Internet domain name registered by Registrant. Registry Operator is not required to ensure that a domain name is being used in compliance with the UDRP.

The URS is one of several new Rights Protection Mechanisms available in the New gTLD Program. It complements the existing UDRP by offering a lower-cost, faster path to relief for rights holders experiencing the most clear-cut cases of infringement. The URS Procedure defines the URS claims process. The Rules will help service providers implement URS in a consistent manner.

The TDRP sets forth the terms under which a dispute relating to Inter-Registrar domain name transfers are handled. Registrars are encouraged to first of all attempt to resolve the problem among the Registrars involved in the dispute. In cases where this is unsuccessful and where a .nyc Registry Registrar Agreement 33 registrar elects to file a dispute, the TDRP procedures apply. Registry Operator is not required to ensure that a domain name is being used in compliance with the TDRP processes.

III. Reservation

Registry Operator reserves the right to deny, cancel, place on registry-lock or hold, or transfer any registration that it deems necessary, in its discretion; (1) to protect the integrity, security and stability of the Internet or Registry; (2) to comply with any applicable laws, government rules or requirements, requests of law enforcement or any other relevant authority or in compliance with any dispute resolution process; (3) to avoid any liability, civil or criminal, on the part of Registry Operator and Registry Service Provider and their affiliates, subsidiaries, subcontractors, officers, directors, employees and stockholders; (4) for violations of this Agreement and its Exhibits; (5) to correct mistakes made by Registry Operator or any Registrar in connection with a domain name registration; and/or (6) to ensure compliance with ICANN and/or Registry Operator policies and/or procedures. Registry Operator also reserves the right to lock or place on hold a domain name during resolution of a dispute. Registry Operator will notify Registrar of any cancellations, locks, holds or transfer made by Registry Operator to the Registrar’s domain name registrations, via email or other method as may be mutually agreed upon by the Parties, within twenty four (24) hours of any change, unless otherwise required to by law.

Registry Operator reserves the right to take immediate action to remove orphan glue records (as defined at http://www.icann.org/en/committees/security/sac048.pdf) when provided with evidence in written form that such records are present in connection with malicious conduct.
