

Information regarding the Referral - Changes in Terms and Conditions for .se

The Swedish Internet Foundation has revised the 'Terms and Conditions applicable for the top-level domain .se from February 6, 2019'.

A referral regarding proposals for changed registration terms (i.e. the terms and conditions that .se /.nu customers must approve when registering a domain) is published on the Swedish website of Internetstiftelsen on May 13, 2019 (link below, available in Swedish only).

The major change in the referral relates to the current requirement that The Swedish Internet Foundation's registrars must inform all domain holders every time the Registration terms and conditions change.
