In addition to your registration agreement, the Minds and Machines TLDs Registry-Registrar Agreement (“**RRA**”) terms and conditions set out here shall apply. In the event of any inconsistency between the terms of your registration agreement and the terms set out here, the RRA terms shall prevail.

1. Registrants shall submit to the Uniform Domain Name Dispute Resolution Policy (UDRP), Uniform Rapid Suspension (URS), Complaint Resolution Service (CRS), and ICANN’s Inter-Registrar Transfer Policy, each in their most recent form and each as may be amended from time to time.
2. The registrant acknowledges and agrees that the registry reserves the right to deny, cancel, or transfer any registration or transaction, or place any domain name(s) on registry lock, hold, or similar status as it deems necessary, in its unlimited and sole discretion: (1) to comply with specifications adopted by any industry group generally recognized as authoritative with respect to the Internet (e.g., RFCs); (2) to correct mistakes made by the registry or any registrar in connection with a domain name registration; (3) if required by a URS, UDRP, CRS proceeding; or (4) for the non-payment of fees to the registry.
3. The registrant shall indemnify and hold harmless the registry and its subcontractors, and its and their employees, directors, officers, representatives, delegees, shareholders, affiliates, agents, successors, and/or assigns from and against any and all claims, damages, liabilities, costs, and expenses, including reasonable legal fees and expenses arising out of or relating to, for any reason whatsoever, the registrant’s domain name registration. This indemnification obligation survive the termination or expiration of the registration agreement.
4. Each registrant shall comply with each of the following requirements:
 - a. ICANN standards, policies, procedures, and practices for which the registry has monitoring responsibility in accordance with the registry agreement between the registry and ICANN (the “**Registry Agreement**”) or any other arrangement with ICANN; and
 - b. Operational standards, policies, procedures, and practices for the TLD established from time to time by the registry in a non-arbitrary manner and applicable to all Registrars (“**Operational Requirements**”), including affiliates of the registry, and consistent with the Registry Agreement, as applicable, upon the registry’s notification to the registrar of the establishment of those terms and conditions upon 90-day notice, except in circumstances where a regulatory body (e.g. ICANN) or law enforcement mandates registries to meet shorter deadlines, in which case the Registrar will work with the Registry to agree on an appropriate date to implement such changes.
